Dear Bill:

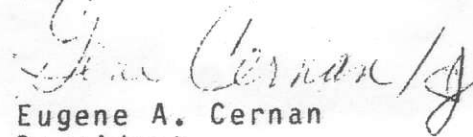

Sorry--no oaths, no non-disclosure agreements, no government secrets and no UFOs ever seen by "this Gene". It would be truly exciting to tell you otherwise.

This unidentified space business executive either had the wrong astronaut or perhaps too many drinks himself.

I believe there is other life "out there", but neither I nor, to my knowledge, any of my colleagues have ever seen any evidence.

Sincerely,

THE CERNAN CORPORATION

Eugene A. Cernan
President
